Press Release
30th November 2012

Fitzy & Wippa broadcast Live from the Bridge

The Nova 96.9 breakfast hosts joined forces with BridgeClimb to present their final 2012 show from the summit of the Sydney Harbour Bridge today

BridgeClimb and Nova 96.6 FM made history earlier today with a world first for FM radio when Fitzy & Wippa broadcast from the top of the Sydney Harbour Bridge.

At 4.30am, long before Sydney woke up, the Nova 969 breakfast hosts were dressed in BridgeClimb suits ready for the ascent to the top of the Bridge. Once at the summit, they broadcast for three hours, supported by a Nova crew and BridgeClimb Climb Leaders who ensured the live show went off without a hitch.

“We were on top of the world,” Fitzy said. “You can’t imagine a better view of Sydney until you’ve seen the sun come up from the Bridge.”

“I've been training hard for this big day... I've walked over the Tom Ugly's Bridge, the Anzac Bridge and the Mooney Mooney Bridge in preparation. All great Bridges but nothing like our incredible Sydney Harbour Bridge,” Wippa added.

Live from the Bridge continues until 23 December with a series of unique happenings and unforgettable moments from the top of the Sydney Harbour Bridge.

This Christmas, tune into **Live from the Bridge** and re-connect with your Bridge**.** The only way to get closer, is to climb it.
